Network access extends to 400,000 km with 58 data centres and access to more than 2,000 PoPs globally, including 36 Telstra Programmable Network PoPs

The Telstra Octagon

Commodities & Equities
 Low Latency Trading Solution

Only Telstra offers ownership of subsea cable routes and low latency backhaul fibers into exchanges across the Telstra Octagon.

Because we own the lowest latency cables connecting key Asian exchanges, you get unparalleled financial performance to speed up price discovery, risk analysis, smart order routing, order flow, order matching, execution, and settlement.

EPL Express Low Latency Coverage

Fastest speed between Singapore and Sydney, Singapore and Hong Kong, Hong Kong and Japan, Hong Kong and Sydney.
